EDUCATION

Master of Computer Applications (MCA)

Manav Rachna College of Engineering, Faridabad
2011 – 2014

Bachelor of Computer Applications (BCA)

Dronacharya Government College

PROFESSIONAL SUMMARY

Results-driven **Senior Software Engineer with 10+ years of expertise** in building high-performance, scalable web applications using Angular and modern JavaScript frameworks. Proven track record delivering enterprise-grade solutions at scale — micro-frontend architectures, real-time data platforms, and performance optimization across **Retail Analytics, Energy Management, Logistics, and Telecom**. Expert in NgRx state management, TDD, and cross-functional team leadership.

PROFESSIONAL EXPERIENCE

Senior Software Engineer — Angular Specialist

March 2022 – Present

Gurugram, India

Capgemini Engineering, Gurugram

Retail Analytics (NIQ) · Dec 2024–Jun 2026

ChampionX (Determine) · Dec 2023–Nov 2024

Rockwell (Factory Talk) · Feb–Oct 2023

Verizon (DNM) · Mar 2022–Jan 2023

- Led end-to-end delivery of Angular modules across **4 enterprise client projects** serving 100K+ users with 99.9% uptime
- Architected **micro-frontend solutions (Module Federation)** enabling independent team deployments, reducing release cycles by **40%**
- Built **NIQ Retail Analytics** — data ordering platform for scoping retail Market/Product/Period data and modelling Customer Price Elasticities (Angular 16)
- Developed **Factory Talk Energy Manager (Rockwell)** — IT/OT convergence energy monitoring platform with plant-level insights using Angular Material
- Delivered **Verizon Dynamic Network Manager** — Single SPA portal for voice/data ordering, network monitoring, and ticketing
- Achieved **60% faster load times** via lazy loading & code splitting; established **85%+ test coverage** with Jasmine/Karma
- Mentored developers on Angular best practices, NgRx state management, and TypeScript design patterns

CERTIFICATIONS

-  AWS Partner: Generative AI Essentials
-  React Certification
-  Introduction to Programming Using Java
-  Hadoop Certification

Senior Software Developer

August 2021 – April 2022

Fretron, Gurugram

Gurugram, India

Fretron Logistics Platform · Aug 2021–Mar 2022

- Built scalable Angular components for a **logistics automation platform processing 1K+ shipments daily** with real-time WebSocket dashboards
- Implemented digitized billing with automated invoice generation, **reducing processing time by 70%**
- Designed reusable component library (atomic design) **improving velocity by 35%**; integrated NgRx for predictable state management

Software Engineer — Angular Developer & UI Lead

September 2020 – August 2021

New Delhi, India

Eco-Mail, Saket

Eco-Mail Admin Platform · Sep 2020–Aug 2021

- Led frontend architecture for enterprise digital mail platform **handling 1M+ emails monthly**, with focus on **GDPR & SOC 2 compliance**
- Designed modular Angular components ensuring consistency, security, and configurability across the platform

Software Developer

May 2018 – September 2020

Primus Software Corporation, Noida

Noida, India

MenuPro (Curtze) · May 2018–Sep 2020

- Developed **MenuPro** — menu & recipe creation app used by **500+ sales teams** with real-time cost analysis, profit margins, and drag-and-drop recipe builder
- **Reduced load time by 55%** via code optimization & caching; ensured cross-browser compatibility and responsive design

KEY PROJECTS

NIQ Retail Analytics

Capgemini Engineering — NielsenIQ

Dec 2024 – Jun 2026

End-to-end Data Ordering solution enabling COE/Analysts to scope retail data across Market, Product, and Periods, with model weights configuration for identifying Most Common Price, Customer Price Response/Elasticities, and Key Value Items.

Angular 16 RxJS NgRx
HTML5 TypeScript

Determine — ChampionX

Capgemini Engineering — ChampionX

Dec 2023 – Nov 2024

Global platform for oil and gas industry covering chemical solutions, artificial lift systems, emissions monitoring, and drilling technologies — aimed at improving production, transportation, and environmental sustainability.

Angular TypeScript HTML5
REST APIs RxJS

Factory Talk Energy Manager

Capgemini Engineering —
Rockwell Automation

Feb 2023 – Oct 2023

IT/OT convergence platform-based energy monitoring application providing energy and production information based on an energy plant model — down to plant, process area, line, and machine level for energy savings analysis.

Angular Material Angular CLI
TypeScript REST APIs

Dynamic Network Manager

Capgemini Engineering —
Verizon

Mar 2022 – Jan 2023

Single-portal solution for Verizon customers to order, manage, and pay for voice and data services. Monitor and configure inbound/outbound network, report on network performance, and manage tickets and product orders.

Single SPA Angular Material
RxJS NgRx WebSockets

Fretron — Logistics Platform

Fretron

Aug 2021 – Mar 2022

End-to-end logistics automation platform for real-time control tower operations, logistics orchestration, digitised billing & settlements, and automated reports & analytics — 10X logistics efficiency.

Angular RxJS Bootstrap
WebSockets NgRx

MenuPro — Curtze

Primus Software Corporation

May 2018 – Sep 2020

High-performance menu and recipe creation application for Curtze food service distributor — used by 500+ sales teams to manage menus, calculate profit per serving, and track cost analysis in real time.

Angular 6 HTML5 JavaScript
REST APIs

KEY ACHIEVEMENTS

🏗️ Micro-Frontend Migration

- Migrated monolithic Angular app to Module Federation micro-frontends
- Reduced cross-team dependencies by **60%**
- Improved build times by **45%**, parallel development enabled

📊 Real-Time Analytics Dashboard

- Processing **50K+ data points/min** via WebSocket
- Live updates with zero performance degradation
- D3.js & Chart.js interactive visualizations

⚡ Performance Wins

- **60% faster load** — lazy loading & code splitting
- **55% load reduction** — caching at Primus
- **70% faster billing** — auto-invoice at Fretron
